Letter of Appreciation

Date: September 25, 2025

To,
Professor Nigel Groome

Dear Professor Groome,

On behalf of Nagarjun Learning Center, we extend our heartfelt gratitude and deepest appreciation for your unwavering support and generous contributions to the Saldum Learning Center Project in Dhading, Saldum-4, Nepal.
Since the very beginning of this project in 2019, your commitment has been the foundation of its growth and success. From scratch, through your kind donations, we now have access to running water, electricity, multiple laptops, internet, a printer, and a projector—all of which have transformed the learning environment for the community.

Your continued support has directly benefited 57 children and 117 adults and women through education, empowerment, and livelihood programs. Notably, your funding of the daily lunch meal program for students has ensured that children can learn without hunger, fostering both health and academic growth.

Through your generosity, Nagarjun Learning Center has been able to successfully conduct activities such as:
- Health camps held annually since 2021
- Women empowerment and skill development classes (including sewing and literacy)
- Tuition support for children
- Warm clothes distribution for underprivileged families
- Awareness and empowerment programs for community development

Your steadfast support has not only improved the infrastructure and resources of the center but has also brought real change to the lives of children, women, and families in Saldum.

For any further information, if necessary, you can contact us at:

Once again, we sincerely thank you for being the main donor and guiding inspiration of Nagarjun Learning Center. Your generosity continues to light the path toward education, empowerment, and hope for the community we serve.

With deepest appreciation,

Shreejan Simkhada
President
Nagarjun Learning Center
